**Alongside her role at JADAsquad, Tina actively serves as a community manager at Data Community Africa, guiding beginners in smoothly transitioning into the field of data. She is also an advocate for building in public and showing your work online.**

**Beyond her corporate engagements, Tina is a Digital Creator and a Data Analytics Tutor, having trained over 6,000 individuals in data analytics tools and concepts. Her dedication extends to publishing multiple articles, particularly focusing on initiating careers in data analytics.**

**Tina spends a lot of her time on Twitter and LinkedIn talking about her experience as a woman in tech. She is extremely passionate about the data community and is trying to drive inclusion for women in technology. Her impact has been recognized through features in notable platforms like TechCabal, Vanguard, Ventures Africa, DataCamp, and Ingressive for Good.**
